Summary

Backend Software Engineer with **3+ years of experience** building **Java/Spring Boot systems** in enterprise environments. **Databricks Certified Generative AI Engineer** with hands-on experience shipping **RAG pipelines, LLM API integrations (OpenAI, Gemini), and AI agent workflows** into production. Led module development at Accenture delivering **10+ production APIs** with a **25% latency improvement**. Strong in **CI/CD, distributed system design, and AI-assisted development** using Copilot and Cursor.

Education

Maharaja Agrasen Institute of Technology, GGSIPU

B.Tech in Electronics and Communication

2019 – 2023

CGPA: 9.0/10

Work Experience

Accenture

Nov 2023 — Present

Associate Software Engineer

Gurugram, India

- **Owned and delivered a backend module** comprising **10+ production APIs** using **Spring Boot and Hibernate/JPA**; served as the primary developer across design, implementation, and deployment.
- Cut API response latency by **25%** through query tuning, result caching, and async processing; reduced **manual deployment effort by 40%** by architecting Jenkins CI/CD pipelines.
- Integrated **AI-assisted code review** into sprint workflows, cutting review cycle time by **~30%**; authored JUnit 5 unit and integration test suites across all owned services.
- Deployed services on **Azure and GCP**; managed Tomcat and Docker environments; built Kafka event-driven flows in an **Agile Scrum** team using Jira.

Aadiswan

July 2023 — Nov 2023

Associate Software Engineer

Delhi, India

- Built and shipped **3 major feature releases** using Spring Boot and React, delivering each from requirements through production within a 2-week sprint cycle.
- Diagnosed and resolved **15+ critical production defects**, stabilizing service uptime to **99%+** during a high-growth scaling phase.

Pepcoding Education Pvt. Ltd.

July 2022 — April 2023

Teaching Assistant

Delhi, India

- Mentored **50+ students** in Data Structures and Algorithms; maintained a **4.8/5 satisfaction rating**; solved **400+ problems** on LeetCode and Nados to stay sharp on fundamentals.

Technical Skills

Backend: Java, Spring Boot, RESTful APIs, Hibernate/JPA, Microservices

AI/ML: LLM APIs (OpenAI, Gemini), RAG Pipelines, Vector Databases, AI Agents, Prompt Engineering, Databricks, Copilot, Cursor

Frontend & DB: React, HTML/CSS/JS — PostgreSQL, MySQL, MongoDB

CI/CD & Testing: Jenkins, JUnit 5, Mockito, Unit and Integration Testing

Cloud, Infra & Security: Azure, GCP (Pub/Sub, Cloud Storage), Docker, Tomcat, JWT, Kafka/RabbitMQ

Projects

ENI-GOLD (Accenture) — Bid Management Platform

- Developed bulk ingestion APIs and a **CSV-to-PostgreSQL migration pipeline** processing **100,000+ records per batch** with transactional safety, rollback handling, and Spring Validation.
- Optimized query performance via indexing, cutting bulk read times by **~35%**. **Tech:** Java, Spring Boot, PostgreSQL, JPA/Hibernate, Maven, Jenkins CI/CD

Enterprise RAG Assistant — LLM-Powered Document Q&A

- Built a **RAG pipeline** connecting a vector database to a Spring Boot backend, enabling context-aware document Q&A over enterprise knowledge bases using **OpenAI and Gemini APIs**.
- Designed **AI agent workflows** to automate multi-step backend processes, reducing manual intervention; implemented prompt engineering patterns for consistent, reliable LLM outputs in production.
- **Tech:** Java, Spring Boot, OpenAI API, Gemini API, Vector DB, RAG, AI Agents

Broker Marketplace Platform

- Built backend APIs for multi-city supplier—customer workflows serving **5+ cities**; integrated **Spring Boot** services with a React frontend for dashboards used by **100+ internal users**.
- Secured endpoints via **JWT authentication** and role-based access control. **Tech:** Java, Spring Boot, React, PostgreSQL, JWT

Achievements

Databricks Certified, Generative AI Engineer Associate — LLM workflows and AI system design
600+ Problems, solved on LeetCode

Vice President, Entrepreneurship and Development Cell — led campus innovation initiatives

Co-authored Research, "Non-Invasive Continuous Glucose Monitoring of Diabetic Patients"
